## **Omada takes Compliance Reporting to the Next Level with Enhanced Module for ILM "2"**

*The Omada Compliance Reporting Center Module for ILM "2" ensures easier, quicker, and less costly security audits by automating compliance reporting.*

*The Module will be showcased on the Microsoft Pavilion at Tech•Ed IT Professionals in Orlando.*

Orlando, June 10, 2008 – [Omada](#), a leading Microsoft solution provider for advanced role based access control (RBAC) and compliance in identity management, today announced the availability of the enhanced Omada Compliance Reporting Center Module beta 3 that builds on top of Microsoft Identity Lifecycle Manager "2" (ILM). The latest version of the Module enables enterprises to have even easier, quicker, and less costly security audits, while heightening the quality of Compliance Reporting.

The Compliance Reporting Center Module is one of eight compelling modules in the Omada Identity Manager solution, adding value by providing automated Compliance Reporting and Auditing on data managed in ILM "2". It easily facilitates the production of compliance audit reports and is highly customizable for customers and System Integrators to quickly produce business-centric reports in formats of their choice by utilizing the advanced web services APIs available from ILM "2".

"Customers will derive great value from the Omada Compliance Reporting Center Module that delivers audit reports the way their business needs them, in a timely fashion," said Morten Boel Sigurdsson, CEO of Omada.

"Omada's solution fills a critical need for businesses to deliver accurate compliance reporting on the ILM platform, underlining our position as having the most business-centric solution available for the Microsoft platform."

"Omada's commitment to ILM "2", with its modular architecture and the Compliance Reporting Center Module, brings value to our customers," said John "JG" Chirapurath, director of Identity and Access marketing at Microsoft. "We are very excited about having Omada with us as an ILM "2" beta 3 launch partner at Tech•Ed IT Professionals this year."

In recent breaking news, Omada has been announced as one of the five finalists worldwide for the Microsoft Security Solutions, Identity and Secure Access Partner of the Year award. The winner will be announced at the Microsoft Worldwide Partner Conference (WPC), which will be held from July 7 – 10, 2008 at Houston, Texas. Currently, Omada is showcasing the Omada Compliance Reporting Center Module for ILM “2” at the Microsoft Partner Pavilion at Tech•Ed IT Professionals in Orlando from June 10 – 13, 2008.

### **About Omada Identity Manager**

Omada Identity Manager is a Microsoft-based solution for Advanced Role Based Access Control and Compliance. The solution integrates seamlessly with various systems including Microsoft Identity Lifecycle Manager (ILM), Active Directory (AD), and ERP systems such as SAP, to deliver a complete modular solution for Identity Lifecycle Management and enable Enterprises to accomplish Compliance, Security, and Efficiency. These modules include:

- Compliance Reporting Center
- Compliance Attestation Manager
- Compliance Monitoring Center (to be released 2008)
- Self Service
- Advanced Enterprise Role Based Access Control
- Data Cleaner (to be released 2008)
- Workflow Designer
- Password Manager

These modules provide immediate and significant business benefits including:

- Fulfilled regulatory compliance requirements
- Increased enterprise productivity
- Reduced user management cost
- Heightened data security
