

Building a Covid 19 Safe business environment

The computer vision based Bosch solution enables a safe working environment for customers and employees across industries. The solution enables detection of facemasks, enforcement of social distancing and temperature measurements at the business location to detect, alert, and report breaches in safety protocols.

Leveraging the existing CCTV infrastructure in place, the solution transforms your workplace into a safe work zone by automated access control, compliance to safety protocols, public announcements and identification of safety breaches.

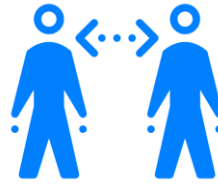

Counting People on Premise

Manage people count to avoid overcrowding to maintain safe social distancing

Real time Face Mask Detection

Take the first step towards prevention, detect face masks to create a safe work environment

Enforce Social Distancing

Upgrade your workplace health and safety practices using WHO guidelines for social distancing

Automated Temperature Reading at Entry

Reduce the spread by identifying and isolating people with higher temperatures

Who can use this Solution?

Retail & Consumer Businesses

Multi Store Hypermarkets to small retail stores, Malls, Hotels etc.

Public Establishments

Airports, Train & bus stations, Ports, Exhibition Centers & other public places that attract large crowds

Business Enterprises

Offices, Factories, Warehouses etc. that have a large workforce working in close proximity

Government & Healthcare Agencies

Various Government & Healthcare agencies, Law Enforcement, Hospitals etc.

About Bosch

The Bosch Group is a leading global supplier of technology and services. It employs roughly 402,000 associates with operations divided into four business sectors: Mobility solutions, industrial technology, consumer goods, and energy and building technology. As a leading IoT company, Bosch offers innovative solutions for smart homes, smart cities, connected mobility, and connected manufacturing. It uses its expertise in sensor technology, software, and services, as well as its own IoT cloud, to offer its customers connected, cross-domain solutions from a single source.
