Task

A customer contacts you about one of their build queues. They’ve noticed that some of their builds have been taking longer than normal lately and want you to help them understand what has changed.

Try using the Build Graph Explorer tool to investigate the builds so you can report back to the customer.

Normal Build:
- Build ID: [redacted]

Slow Builds:
- Build ID: [redacted]
- Build ID: [redacted]
- Build ID: [redacted]
- Build ID: [redacted]
